Required equipment provided by the event / TECHNICAL RIDER:

- PA system suitable for the audience present.
- Safe and nearby 220V power outlet.

Space and setup:

- Although it is a roaming band that performs among the audience, it is highly recommended to dedicate a stage area for "standard" performance moments and breaks.
- Space protected from direct sun, wind and rain.

Setup and soundcheck:

- Soundcheck schedule: 90 minutes before the start of the performance.
- Soundcheck duration: 45 minutes.
- Technician present throughout the performance.
